1. INTRODUCTION

Providing high quality careers education and guidance is critical to achieving our school's core purpose: empowering all pupils to find their purpose and thrive as citizens of the world. High quality careers education and guidance in school is critical to young people's futures. It helps prepare them for the workplace by providing a clear understanding of the world of work including the routes to jobs and careers that they might find rewarding and engaging. It supports them to acquire the self-development and career management skills they need to achieve positive employment destinations. This helps pupils to understand and access pathways beyond their immediate experience, improve their life opportunities and positively contribute to society.

The CEIAG policy has been designed to allow parents, carers and all stakeholders to become familiar with the programme of careers education, information, guidance and development the school provides for our pupils. The following pages provide an overview of the principles and design of the programme.

2. AIM

The aim of the policy is to ensure that the school offers pupils their entitlement to a structured and impartial programme of careers education, information, advice and guidance of the highest standard. It is informed by our core purpose: empowering our pupils to find their purpose and thrive as citizens of the world and our commitment to achieving the Gatsby Career Benchmarks. It is underpinned by the Careers guidance and access for education and training providers (Department for Education, 31 August, 2022). To this end, the policy sets out measures, in accordance with relevant statutory guidance, which aim to:

- contribute to strategies which secure excellent outcomes and raise pupils' aspirations to place them on an ambitious pathway at each stage of transition
- provide a planned programme of impartial careers, education, information, advice and guidance for all learners across Years 7 to 11, supporting each stage of pupils' personal and academic achievement
- promote equality of opportunity, support inclusion, and challenge stereotyping
- meet the needs of all pupils and support all pupils' successful transition into the next phase of education and employment
- ensure pupils are equipped with the knowledge and employability skills to thrive beyond secondary school, including being able to manage their own careers, sustain employability, and achieve personal and economic well-being
- work alongside external agencies, education providers and employers to ensure the most up to date, aspirational, inspirational and varied information and guidance is provided without bias
- encourage participation and sustained destinations in continued learning beyond secondary school.

- involve and inform parents and carers
- to contribute to the long term economic prosperity of individuals and communities

3. THE PRINCIPLES

The CEIAG programme at Dean Trust Ardwick is based upon the principles that an effective CEIAG programme:

- provides access to a range of activities (including separate provision, integrated provision and co-curricular activities) which inspire our pupils, provides experiences beyond their immediate circumstances and supports them in the development of their ambition and character to build a successful future;
- motivates and inspires our pupils to take ownership of their career plans and to consider all options (using all available information including up to date labour market information) so that they can make fully informed choices;
- builds strong links with employers who can help build pupils' knowledge of work, employability skills and the steps necessary to enter into different careers;
- widens access to advice on post-16 and post-18, including vocational routes and apprenticeships as well as A-levels and university study;
- provides one-to-one advice and guidance to personalise provision
- provides information about the financial support available for them to stay in education post-16;
- consciously works to prevent all forms of inequality, bias or stereotyping within advice and guidance provided, so that all pupils consider the widest possible range of careers;
- supports teachers to explicitly make links between the curriculum content and future careers across all subjects and embeds careers development into lessons;
- regularly consults with pupils, staff, parents on provision to inform continuous improvement.
